ARCHITECTURE

Eila pays homage to the landscape—BOTH STRUCTURAL AND NATURAL—of Oakridge.

A SIMPLE ELEGANCE

The open flow of common space lends ample natural light and a welcoming air, the perfect environment for friends and family to convene. The design offers a simple elegance to everyday spaces with sleek, unobtrusive finishes and clean lines.

KITCHEN

The kitchen is no longer a room known only to culinary creativity; it is a dynamic space built around communality as much as it is built around food. With a breakfast counter that bridges into the living space, the kitchen is at once a place of productivity and relaxation.

A ROOF OF ONE'S OWN

Townhomes are treated to a spacious private rooftop terrace, with expansive views of the city and its mountainous landscape. Fit for dining, cooking, and lounging, these terraces were designed with summer dinners and long reads in mind.
