MYRON'S MUSE AT SILVER VALLEY

Myron Kuzych was an extraordinary man. He came to Canada as a teenager with his twin brother in search of freedom and adventure. With only a high-school degree, he became the most widely read and learned of men.

Myron was hard-headed and generous, an idealistic socialist and a pragmatic capitalist. Above all, he was relentlessly curious. For thirty years, he lived with his wife Sev here on this property in a house he built with his own hands, and in which he read, wrote, and mused about the way the world is and the way it could be.

This community is an homage to Myron and a memorial to his love of learning.
