THE OCEANSIDE MASTERPLAN

MASTERPLAN

HOMES FOR EVERYONE.

This 270-acre masterplanned community has something for everyone. From spacious single family homes that are perfect for a growing family, to well-appointed ranchers that offer flexibility of lifestyle, to multifamily condominiums that comfort and convenience. This idyllic community will provide the perfect setting to put down roots and live the life you've always dreamed.

VILLAGE CENTRE

All of these homes will be within walking distance of a new Village Centre, offering retail, entertainment, and cultural hotspots to residents and visitors alike.

The Village Centre will provide an array of amenities, which may include cafes, a library, community markets, a community gymnasium, and administration and community support services.

In time, there will be an elementary school with space for 400 students, complete with play areas and community sports fields.

TSAWWASSEN MILLS

Next door, a proposed new mall is taking form. Tsawwassen Mills, modeled after Alberta's CrossIron Mills and Vaughan Mills near Toronto, will include popular large-format anchor stores, premium retail brands, and fabulous dining and entertaining options.

This mall will combine with the proposed Tsawwassen Commons outdoor shopping centre to provide 1.8 million square feet of retail, office, and entertainment space.

A GREENER LIFE

New transportation routes, including bike and major walking paths, will link residents to jobs and community nodes. The Great Blue Heron Way will be a major multi-purpose trail for pedestrians and cyclists, eventually linking Tsawwassen Shores to other communities all the way up to Squamish.

You can cycle or walk the proposed boardwalk through the wetlands down to the shoreline. There will also be two sizeable neighbourhood parks for playing sports and socializing with family and friends, as well as a variety of local parks throughout the community.
