THE CENTRE CLUB

This soon-to-be centerpiece of the Benchlands neighbourhood will become the heart of the Lakestone community. A coffee shop and mail services will make the Centre Club the place to meet your neighbours and create new friends.

The architecture for the Centre Club is "Contemporary Park Board", recalling the stone and wood structures often found in historic parks throughout the world. The style is at once familiar, yet appropriate for a forward-looking community like Lakestone.

THE FEATURES

The Club features a large workout room and yoga studio with adjacent change rooms and coffee shop. Everything opens up onto the pool terrace, where you can drink in west-facing lake views and beautiful landscaping from the hot tub or pool. Tennis and multi-sport courts, plus open space to toss a Frisbee or walk the dog, are also featured by this Benchlands amenity.

LAKESTONE BEACH

Steps down the trail from the Lake Club is direct lake access. The beach area features an attractive timber pavilion, reflecting the architectural style of Lakestone. Picnic tables and loungers are also available for waterside relaxation. Kayak racks and storage for rowboats and paddleboards allow you to take advantage of all the lake has to offer.

The natural lake bed and vegetation have been retained to protect this significant Kokanee spawning ground, with specific locations provided for kayak or paddleboard launching. A quiet water area in front of the club's dock is perfect for a swim, paddle or sail, away from powered watercraft. A second community dock 150 metres south of the beach provides those with powered watercraft a location to pick up friends and family for a day on the water.

TRAIL SYSTEM

A 25 km network of excellent hiking trails runs from the lake shore to Summit Park, spanning a 300-metre grade. Views from the summit are panoramic. With Duck, Wood and Kalamalka Lakes to the east, and Okanagan Lake to the north, west and south, these vistas are truly unparalleled in the Okanagan Valley.

The trail hierarchy ranges from narrow historical animal tracks to wider pathways with strategically chosen lookout points. Small parks situated throughout the trail system provide hikers with the opportunity to catch their breath while taking in the views. A series of trail head markers at specific entry points serve to orient hikers so they can navigate specific routes throughout the site.

SUMMIT PARK

Perched on the highest point of land at Lakestone, Summit Park is a peaceful space. A primary destination for hikers, the park can also act as an activity space for special events such as movie nights or small performances in a natural amphitheater setting. Minimal in its programming, Summit Park acts as a serene counterpoint to the wide variety of activities available at Lakestone.
