

The Village

Spacious floorplans honed to perfection by years of experience

Open layouts give you the ability to entertain in style.

INSIDE YOUR HOME light fills the open space and blankets you in the feeling of ultimate comfort. The expansive 9ft or vaulted ceilings accentuate your living space while the handset designer tile work and luxurious carpeting give you the assurance that these homes deliver exceptional ParkLane quality. Every detail has been considered in your gourmet kitchen. Features like a stainless-steel double undermount kitchen sink with stylish Chrome Kohler® streamlined faucets are standard in every home. In the kitchen, you'll find granite countertops, heritage shaker-style cabinets, ceramic tile backsplash, and a full suite of stainless steel appliances – everything you need for culinary perfection. Enjoy in-floor heating in the master ensuite, His-and-Hers vanities, custom mirrors, hand-set tile work and Kohler® faucets. All designed for that perfect blend of modern design with heritage accents.

Residents will enjoy building amenities like the grand lobby, complete with stone fireplace and lounge seating. And for your health and well-being, a well-equipped fitness and entertainment room will be yours to enjoy.
