THE ECONOMICAL GREEN SOLUTION

The Earth's crust contains a large amount of energy that is radiated from the Earth's core. This energy is available for use in a variety of ways, including recreational use (hot springs), direct use for heating and cooling, and for power generation. In Canada, geothermal energy has been tapped to heat homes and businesses for decades. In some cases, communities have taken advantage of naturally occurring hot springs and steam vents to gather hot water and steam for heating. Some commercial hot pools and resorts in Alberta and British Columbia continue to use geothermal energy in this way. The hot springs in Banff, Alberta, is a famous example of the direct use of geothermal heat at a resort.

Today there are other important emerging geothermal systems in Canada: including ground-source heat pumps. In most parts of Canada, the temperature of the earth at a depth of a metre or two is fairly constant, at between 5° and 12° C throughout the year. This means that the ground is warmer than the outside air in the middle of winter and cooler during

mid-summer. Ground-source heat pumps take advantage of this difference. Using a small series of buried pipes that circulate a liquid, they use the ground as a source of heat in the winter and as a "sink" to remove heat from the indoor air in the summer. Then using a small amount of electricity the warm/cool air is dispersed through the home.

Currently there are about 30,000 of these systems in homes across Canada. On average Canadians who use Geothermal energy with a heat pump save 60% or more compared to other conventional systems. Heating domestic water can take up to 25% of your total energy cost. The heat pumps used at Lumina not only are energy efficient but also quiet.

Geothermal energy does little damage to the environment, it incurs less operational costs compared to any other type of heating system available in the market today. And since geothermal energy is a renewable resource we will never run out.

ENERGUIDE AND HOW IT WORKS

An EnerGuide rating shows a standard measure of your home's energy performance. It shows you (and future buyers) exactly how energy efficient your home is. The rating is calculated based on standard operation assumptions so that you can compare the energy performance of one house against another. The home's energy efficiency level is rated on a scale of 0 to 100. A rating of 0 represents a home with major air leakage, no insulation and extremely high energy consumption. A rating of 100 represents a house that is airtight, well insulated, sufficiently ventilated and requires no purchased energy on an annual basis. Lumina offers HIGH 81+ rating on all of their eco-friendly craftsman style townhomes.

TYPE OF HOUSE

New House built to building code standards	65-72
New house with some energy-efficiency improvements	73-79
Energy-efficient new house	80-90
House requiring little or no purchased energy	91-100

Energy Efficiency Rating
Allows comparison of energy performance with houses of the same size. The more efficient the house, the higher the rating number.

Estimated Annual Energy Consumption for the House Under Standard Operating Conditions
Allows comparison of the energy consumption of the house to similar houses, and helps estimate energy costs.

Software Version
The EnerGuide rating software edition that was used to determine the home's energy efficiency rating.

Date
The date that the energy efficiency evaluation was conducted.

AMAZING New Surrey Lumina Townhomes by Maskeen Group > Affordable Surrey Homes for Sale in Panorama Neighbourhood Starting from \$400' s (3 Bed+Flex, 2 Car Garages)

35 ECO-FRIENDLY CRAFTSMAN STYLE

3 BEDROOM + FLEX TOWNHOMES

STARTING FROM THE LOW 400'S

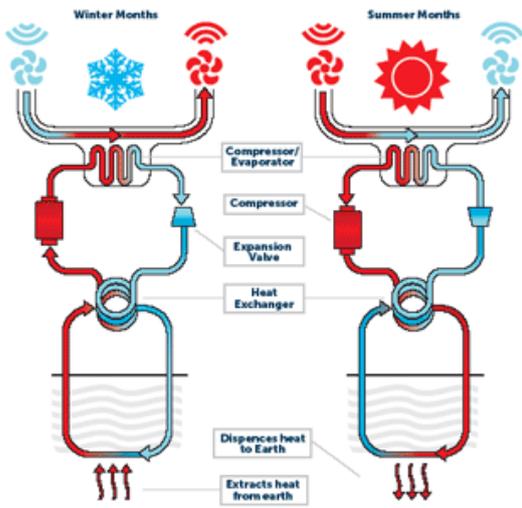

Lumina Surrey Real Estate Development

Save more and help the environment! Introducing the eco-friendly homes in Surrey real estate market now selling! Called Lumina Surrey townhomes, the project will include 35 four bedroom and 3 bed+ flex eco-friendly townhouses centrally located at 14877 - 60 Ave Surrey. They will be affordably priced from just the low \$400' s. From ground up, the new Surrey Lumina Townhomes will be environmentally sensitive without compromising on interior or exterior quality and some of the eco-friendly home features include Energuide rated 81+, low VOC paints throughout as well as geothermal heating and cooling systems where you use the heat and coolness of the ground for year round comfort. In addition, the new Lumina Surrey townhomes for sale will introduce water conserving plumbing fixtures in every bathroom and kitchen in addition to Energy Star rated appliances and Power Smart energy certified features. Other eco-friendly Surrey home

features at Lumina living includes low emission double glazed windows and hybrid water heater. All of these add up to a great Built Green Surrey real estate development in the Panorama neighbourhood. The craftsman exteriors at the affordable Surrey Lumina homes for sale include high performance HardiPlank siding (with a good warranty) in addition to Hardishake accents and energy efficient low E vinyl windows. Other exterior features at the Lumina Surrey homes for sale include designer selected paint colours, lavish park with professionally landscaped areas with benches, gazebo, pathways as well as entertainment sized outdoor living spaces for you to enjoy. The new Surrey Lumina Townhomes will also have aluminum railings with glass panels. The worry free, low maintenance living at the new Panorama Surrey real estate development at Lumina Townhouses also includes a comprehensive National Home Warranty in addition to pre wiring for VAC system and security alarm. There are hard wired smoke detectors and a home manual by Maskeen Group developers. The presentation centre for the new Lumina Townhomes is located at 14877 60 Ave Surrey and is open Monday through Sunday (except Fridays) from one to five. You can also visit www.luminaliving.com for more information about the affordable Surrey Lumina townhomes for sale.

THE ECONOMICAL GREEN SOLUTION

The Earth's crust contains a large amount of energy that is radiated from the Earth's core. This energy is available for use in a variety of ways, including recreational use (hot springs), direct use for heating and cooling, and for power generation. In Canada, geothermal energy has been tapped to heat homes and businesses for decades. In some cases, communities have taken advantage of naturally occurring hot springs and steam vents to gather hot water and steam for heating. Some commercial hot pools and resorts in Alberta and British Columbia continue to use geothermal energy in this way. The hot springs in Banff, Alberta, is a famous example of the direct use of geothermal heat at a resort.

Today there are other important emerging geothermal systems in Canada: including ground-source heat pumps. In most parts of Canada, the temperature of the earth at a depth of a metre or two is fairly constant, at between 5° and 12° C throughout the year. This means that the ground is warmer than the outside air in the middle of winter and cooler during

mid-summer. Ground-source heat pumps take advantage of this difference. Using a small series of buried pipes that circulate a liquid, they use the ground as a source of heat in the winter and as a "sink" to remove heat from the indoor air in the summer. Then using a small amount of electricity the warm/cool air is dispersed through the home.

Currently there are about 30,000 of these systems in homes across Canada. On average Canadians who use Geothermal energy with a heat pump save 60% or more compared to other conventional systems. Heating domestic water can take up to 25% of your total energy cost. The heat pumps used at Lumina not only are energy efficient but also quiet.

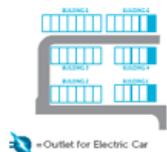

Geothermal energy does little damage to the environment, it incurs less operational costs compared to any other type of heating system available in the market today. And since geothermal energy is a renewable resource we will never run out.

**The Interiors at Lumina Townhomes in Surrey
Panorama Neighbourhood**

Ultimate luxury at affordable prices. This should be the catch phrase for this promising Panorama Surrey real estate development which features only 35 3 bed+flex or 4 bedroom homes. Two major features that we would like to point out about these eco-friendly Surrey homes is that there will be standard geothermal heating and cooling systems in each and every home in addition to a high Energuide rating of 81+. The luxury bathrooms at the new Surrey Lumina Townhomes in Panorama will feature a master ensuite with quartz counters (better than granite), under mounted sinks (with double vanities so no sharing allowed) in addition to deluxe walk in glass showers that are separate from the deep soaker tubs. These are standard features too! In addition, the new and affordable Lumina Townhomes in Surrey include large format porcelain tiling, powder rooms with porcelain tiled floors, chrome accessories, mirror, lighting, quartz counters and undermounted sinks. Other bathroom features at Lumina Panorama Surrey homes for sale include dual flush toilets for water conservation, bevelled vanity mirrors as well as main baths with bathtub/shower combos, quartz countertops, under mounted sinks and ceramic tiled surrounds. The stunning interiors will have two professionally selected colour palettes for homebuyers to salivate over. They include Vivid and Twilight, obviously one is a dark palette while the other is a lighter one. The new Panorama Surrey Lumina Townhomes also feature craftsman style crown mouldings and baseboards in addition to pot lights and elegant light fixtures throughout. The affordable Surrey homes will also have designer selected carpets in bedrooms and stairwells in addition to rich laminate wood floors on the main floor. Doors will have modern pulls and the living rooms will have electric fireplaces with custom mantel tops. There is surround sound rough-in as well as pre-wiring for telephone and high speed internet/cable throughout. The gourmet kitchens at the Lumina Townhomes in Surrey real estate market will feature custom designed cabinetry that have soft stop closing systems and lots of storage space in addition to stainless steel appliance set and full height subway tiled backsplash that is professionally selected. Also, the pre-construction Panorama Surrey Lumina homes will have quartz countertops that are durable and healthier than granite, in addition to built in recycling and dual stainless steel sink.

The New Surrey Lumina Home Plans

The floor plans at Lumina Surrey homes will be functional and spacious. There is lots of storage space and laundry closets as well as outdoor areas/patios for all to enjoy. The new Surrey Lumina home plans also afford two car side by side garages with automatic garage door openers and keyless entry featuring electric vehicle charging stations. The interior living space will have silent floor systems for good sound buffering in addition to walk in closets with storage bench seating and two inch vinyl blinds for added privacy. In addition, the affordable Lumina Townhomes in Surrey real estate market features elegant rope lighting in the upstairs areas, as well a fully finished lower level with flex rooms.

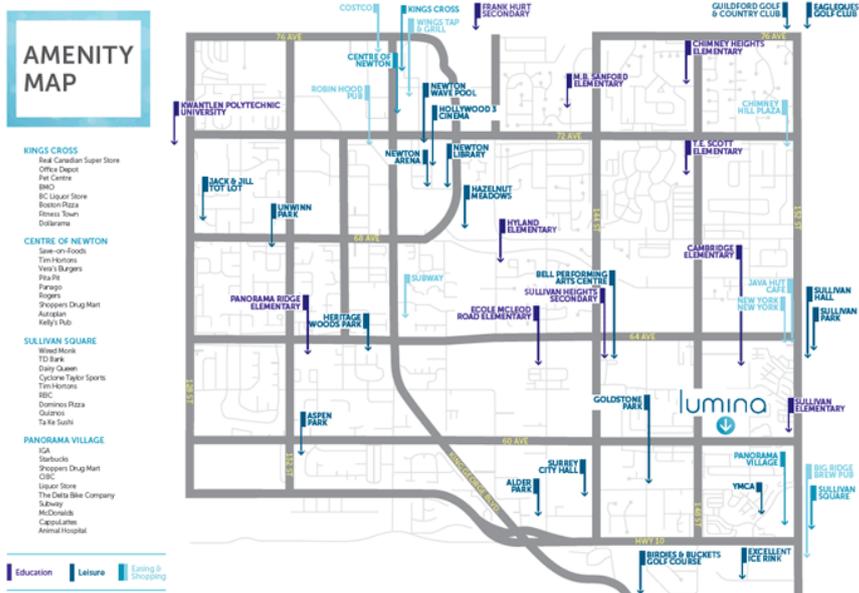

Lumina Surrey Home Plan A

The A layout is a 3 bedroom plus flex and 3 bathroom unit at 2,154 square feet in size over 3 levels. The lower level features a 2 car side by side garage plus a flex room and powder room plus extra storage space. The main level of this Lumina Surrey home plan features a large kitchen with centre island combined with a family room on the one end, separated by a powder room/pantry area and then a dining room and living room. The upper level of this new Panorama Surrey Lumina floorplan features three bedrooms and 2 bathrooms, one of which is the master ensuite with walk in closet, two vanities and separate shower from tub.

The B, C and D Layouts at Surrey Lumina Townhouses

The second floorplan at Lumina Surrey real estate development is the B layout which features a similar layout but smaller floor space of 2,054 square feet. The lower level, main floor and upper levels are very similar and it too has an outlet for an electric car. The 3rd layout at the new Surrey Lumina townhouses is Plan C which is 2,133 square feet while the 4th layout is 2,036 square footage. All are three level home plans with double garages (side by side) with laundry closets and 3 bedrooms up top plus powder rooms on the main floor. All of the new Lumina Surrey home plans also have a flex/fourth bedroom on the lower level with a powder room too.

The Panorama Surrey Community

One of the greatest advantages about living at Lumina Surrey townhomes is that they are located in the exclusive and developing neighbourhood of Panorama Surrey real estate district. Public transit, highways/freeways, big box retailers and stores are very close at hand. In addition, the Panorama Surrey Lumina Townhomes are also very close to top rated schools for all ages and numerous city parks. Here at Panorama Surrey, Lumina Townhome owners will be very close to Kings Cross where you will find Dollarama, Fitness Town, Boston Pizza, BC Liquor Store, BMO, Pet Centre, Office Depot and Real Canadian Super Store. The centre of Newton Surrey Panorama real estate district has lots of dining options and Save-on-Foods while Sullivan Square has banks, fast food and Cyclone Taylor Sports. The Lumina Surrey townhomes are even close to Panorama Village with its IGA, Starbucks, Shoppers Drug Mark, The Delta Bike Company, Subway, McDonalds, CappuLattes and a Liquor Store. The new Surrey Lumina Townhomes are situated in the ever expanding and exciting neighbourhood of Panorama. Lumina Surrey real estate development features a collection of city savvy eco friendly townhomes and there are only thirty five homes for sale in this project. Priced affordably from the low \$400' s, these four bedroom Surrey Lumina Townhomes for sale are designed with the latest technology for sustainable living including geothermal heating and cooling systems for significantly reduced carbon footprint and energy/water savings. For a special invite to the grand opening pre-sale launch at the new Surrey Lumina Townhomes, please register online at www.luminaliving.com today or you can call 604.760.7672.
