"I was very happy to be a part of the  
design team of these City Homes. The  
overall architectural design was  
impressive and unlike anything I've seen  
previously. I especially enjoyed designing  
the interiors - in particular the spacious  
living area and the private rooftop  
terraces. They will be a wonderful place to  
relax in the evenings, or to entertain  
friends and family with a barbecue in the  
summer months."
