Interiors

Classic Meets Contemporary

The interiors at Avery Lane represent a crossroad between classic design and contemporary sophistication to create comfortable, highly functional living areas suited for the good life.

Perfectly-articulated, quality interior details offer an understated elegance that is true to classic form, with durable finishes designed to last.

Rich in Light and Appeal

Overheight 9' ceilings on the main floor, thoughtfully placed large, double glazed windows and recessed lighting combine to offer an interior space that feels rich with light and grand in appeal.

Blonde Oak wide plank laminate flooring unifies the lower and main floor living areas, contrasted by premium carpet with high density underlay on the stairs and throughout the upper floor.

Thoughtful Details

Gourmet kitchens feature premium appliances by Mofat®, Samsung®, Bosch® and GE®. Offering gas cooking and expansive storage and preparation space throughout, kitchens are perfect for dining and entertaining alike.

Two distinct kitchen palettes offer timeless appeal to a range of tastes. A light palette incorporates crisp whites and elegant lines; a dark palette offers contemporary, dramatic allure.

Spa-like bathrooms are designed as a place for retreat; featuring custom shaker style vanities, feature wall and floor tile accents and wainscoting in the powder room.

Building

Timeless Design

Thoughtfully appointed on a picturesque, tree-lined street, Avery Lane stands proudly with strong traditional accents in an established setting surrounded among mature Garry oaks, offering curbside townhome appeal.

Professionally-designed landscaping offers lush gardens and generous outdoor living areas designed with privacy and ease of maintenance in mind, complete with a terrace and balcony for each home.
